Income protection insurance for actors, musicians and entertainers

... because it doesn't take more than losing your voice for you to lose a substantial part of your income.

... because special occupations require tailor-made solutions.

... because picking just any type of protection will not get you anywhere.

... because it's almost impossible to come by insurance cover that suits your needs.

... because those who work hard every day to brighten up our days with what they do deserve no less than lifelong happiness and joy.
